## Testimonials

### Resort World Sentosa

RWS decided on Carlo Gavazzi for the parking guidance system as an integral part of its service offering. The PGS has shown itself to be capable of withstanding the high volume of traffic with unmatched quality, accuracy and stability. After reviewing other vendors, we found Carlo Gavazzi produces superior components, allows for easy integration and is very competitive. We would like to thank the guys from Carlo Gavazzi for their tremendous support & we look forward to working with you again in future projects.

Regards,  
Rupert Tan  
Senior Manager, Resorts World Sentosa

### Busgaden Parking House

In the spring of 2009, Aarhus Municipality, Traffic and Roads Department, made an agreement with Carlo Gavazzi Industri A/S, Hadsten on the setup of a Carpark guidance system in the car park "Busgadehuset" Frederiksgade 25, 8000 Aarhus C. During both test period and subsequent period of operation, the system has worked to our and our customers' entire satisfaction. By means of the system's red and green lights, parking in our parking facilities have become much easier and hence service to our parkers have been improved. Additionally, the many lights have lightened up the car park and made it more inviting to our customers. Since its beginnings, Traffic and Roads Department has received much positive feedback from the parkers and we highly recommend the system.

Sincerely,  
Niels Richard Madsen  
Principal Secretary
