THE HOUR REFERENCE ACCORDING TO EN 60309-1 AND EN 60309-2

Voltage and current combinations differ based on the position of the earth contact in one of the twelve different positions at 30° from one another around the pole circle.

The reference of the different position is given by looking at the socket-outlet open (front) side; the 6 o'clock (180°) position is pointing down. The most common positions are yellow 2P+⊕, blue 2P+⊕, red 3P+⊕ and red 3P+N+⊕.

The background of the entire page is a night-time satellite view of the Earth, showing the illuminated continents of Europe and Africa. A bright sun or star is positioned at the horizon, creating a lens flare effect. A network of blue lines and dots, resembling a constellation or a data network, is overlaid on the image. The Palazzoli logo is prominently displayed at the top center.
