## OMNIBENCH

Omnibench is a urban furniture design for public spaces patented by Omniflow.

The contemporary design is inspired in the Omniled smart platform shape and can interact with this product with multiple optional features like, bottom light, USB or wireless charging points and electric bicycles docking stations.

The water tight bench can be opened and be used for other technical purposes like the installation of a camouflaged base station for a telecommunications provider or simply more batteries.

The Omnibench can be filled with sand/water or simply bolted to the ground.
